

Agricultural Trade and the Development of the local Food Economy in Sub-Saharan Africa

Humboldt-Universität zu Berlin, 4th May, 2018, Berlin; 9:00 am - 15:15 pm

© GIZ / Shilpi Saxena

Organizers:

Humboldt-Universität zu Berlin, Division "International Agricultural Trade and Development", University of Hohenheim and GIZ Sector Project "Agricultural Trade and Value Chains"

Objective of the event:

The focus of this event is to foster the discussion about the role of agricultural trade for the development of the local food economy in Sub-Sahara Africa. In West Africa, the local food economy, including all activities related to the production, processing, transport and distribution of food amounted to 178 billion Dollars in 2010. The local food economy is an important job creator. Nevertheless, Africa has become a net importer of food - mainly due to its weak food system governance, population growth, low agricultural productivity, poor infrastructure, and changing (urbanising) consumption patterns.

With this dialogue event, we want to further the understanding of how the governance of agricultural trade may affect the potential of African food economies for creating food security, income and employment. We will illustrate this with two different case studies: a) the situation of the milk market in Burkina Faso and b) the poultry market in Cameroon. Finally, we want to discuss the necessary and available policy space in trade agreements for national governments in Sub-Sahara Africa, the opportunities, to support local and national food markets and ways, how the European Union may

support this development.

Participants: around 50-75 participants from German government institutions, develop-

ment organizations, the German food industry and farmer's association, science representatives, economic associations, NGOs, students and inter-

ested public

Language: English

Programme

8:30-9:00	Arrival, Registration, Coffee	
9:00-9:20	Welcome	Prof. Dr. Harald Grethe,
3.00-3.20	VVCICOTTIC	Humboldt-Universität zu Berlin;
		Prof. Dr. Christine Wieck,
		University of Hohenheim
9:20-9:45	Opening Address	BMZ Head of Directorate-General 1,
9.20-9.43	Opening Address	
9:45-11:00	Session 1	Gunther Beger Session chair:
9.45-11.00	EU dairy exports to Burkina Faso and	PD Dr. Khalid Siddig,
	the local dairy economy	Humboldt-Universität zu Berlin
