

Prof. Dr. Klaus Eisenack offers a position for a

Student Assistant

in the Resource Economics Group for 40 hours per month. The position is to be filled from February 1st 2025 for 24 months.

The group advances economic research on the sustainability transition, in particular: Political economy and institutional economics of climate change adaptation and mitigation; urban climate governance; water management and the energy transition; archetype analysis as an approach to study social-ecological-technical systems. We offer insightful work in a strong team.

Tasks

- Supporting the research of the resource economics group, including literature research, data retrieval and -analysis
- Supporting lectures and preparing teaching material
- Advisory activities for students

Requirements

- Has experience or knowledge in the German renewable energy transition and/or city administration
- Skilled in qualitative content analysis or is keen to learn
- Good language skills in English and German
- High motivation for and interest in our research topics

Advantageous

- Knowledge in environmental, resource or institutional economics
- Knowledge of further software, e.g. R, Python, MaxQDA.
