

expectation loves surprise

Discover the diverse career opportunities offered by the world's leading chemical company. www.basf.com/career

We are the world's leading chemical company because we offer intelligent solutions for our customers and for a sustainable future. We link and develop people with diverse talents all over the world. For you, this means a variety of ways to advance. Not only your performance but also your personality matter to us. At BASF, careers develop from opportunities.

As a reliable partner of the rural economy, Crop Protection offers innovative, sustainable solutions for plant protection and health. With the agricultural center in Limburgerhof, close to the BASF Group headquarters in Ludwigshafen, you can expect an attractive place for both work and play in the Rhine-Neckar region. For our unit European Technical Management we are currently seeking a student (m/f) for a

Working area:

Research & Development

Location:

BASF SE, Limburgerhof

Working hours:

Full-time

Contract Type:

Thesis

Bachelor thesis "Minor Uses"

What you can expect:

As a bachelor student composing your thesis at BASF, you are responsible for the self-contained literature and internet research on existing information on the subject of Minor Uses. In this context, you will include both the European region as well as other regions in the world into your research. You will evaluate existing legal plant protection ordinances and regulations and consider various Minor-Use-initiatives as well as their implementation within the 28 European member countries. Furthermore, you will summarize and edit the gathered data and present it in an adequate manner.

What we expect:

You are currently pursuing your undergraduate studies in agricultural sciences or a similar scientific discipline. Ideally, you have already gained experience in the field of plant protection. Furthermore, you are able to work independently, to prepare collected data and use your English language skills for presentations and for composing your thesis in English. Beyond that, you are well acquainted with the standard IT applications and are versed in using your excellent communications skills on a daily basis at work. If, in addition, you show a structured and well-organized way of working, we are looking forward to your application!

We offer:

From day one you will be part of the BASF family. You will get involved in challenging fields of activity and have the opportunity to work on exciting projects in an interdisciplinary environment. Depending on the location of the respective group company you will get to know BASF and participate in various workshops and guided tours. In this way you will make numerous interesting experiences and get a deep insight into the world's leading chemical company.

Expect to be surprised by the exciting range of career opportunities at BASF.
